# Stainless Steel Products

## LLV Fuel Tank and Accessories

Although the LLV gas tank utilizes a tar coating for protection, the life of the tank is cut short when the undercoating chips away. Salt and moisture come in contact with the gas tank and, consequently, chemical deterioration begins.

Our stainless steel tank and accessories were designed and manufactured to eliminate subsequent replacements due to failures, leaks and corrosion. The fuel tank and kit are constructed entirely out of stainless steel, including the sending unit mount, seams, filler neck, upper straps, lower brackets and locking rings. The stainless steel tank is manufactured in every function, form and fit as the OEM tank and installs in the same manner as the existing tank.

Part Number	Description	Part Number	Description
88880030	Fuel Tank	88880024	Lower Bracket
88880023	Upper Strap	88880030KIT	Kit*
			*Kit includes fuel tank with o-ring, upper strap (2) and lower bracket (2)

## Fuel Lines

JIS fuel lines are preformed to replicate the OEM lines. Stainless steel construction eliminates corrosion and rusting, allowing lines to last the life of the vehicle.

Part Number	Description	Part Number	Description
3750950LP	Long 1987-93	3750955	Full Set 1994*
3750950SP	Short 1987-93		*Includes front and rear 1/4" vapor lines, 5/16" return line, 3/8" feed line, intermediate feed line and all hoses.
3750956	Front Set 1994		
3750957	Rear Set 1994

## Cooling Lines

Stainless steel line construction eliminates corrosion and rusting for lines that last the life of the vehicle.

Part Number	Description	Part Number	Description
14700	700R4 Set	12541500	1994
12541501	P30 Set	2807-6-63P	4L60 Braided Stainless Lines
1324714	1987-93	2807-6-55P	4L60 Braided Stainless Lines

JIS stainless steel brake lines that eliminate rust and corrosion issues provide drivers with an added level of security.

Part Number	Description	Part Number	Description
15349	Left Rear	15568033SS	Prop Valve to Brake Line 1987-93
15350	Right Rear	15568034SS	Prop Valve to Brake Line 1987-93
15351	Right Front	15684345SS	Prop Valve to Brake Line 1994
15352	Left Front	15684346SS	Prop Valve to Brake Line 1994
15628148PF	Long Line		

## Exhaust

JIS direct fit exhaust products are built to O.E. specifications and constructed out of 409 stainless steel. The muffler is 100% stainless steel, direct fit with flanges and built to O.E. specifications for size, fit, sound and back pressure. The tail pipe includes front and rear brackets welded to the pipe.

Part Number	Description
15958453	Tail pipe LLV
15958454	Muffler LLV
15958453OP	Muffler and Tail pipe One Piece Design LLV - All

## Door Tracks and Weather Strip

Door tracks are a high wear item on the LLV. The best prevention of multiple replacements is to choose the stainless steel version from JIS. Stainless will not rust, corrode or deteriorate. Stainless is more durable than aluminum and steel, so the chance of damage is reduced. Durability is the key to reduce wear. Combine our 88812500 stainless wear strips with stainless door tracks and enjoy a lifetime of service. Install the extended tracks to allow the side door to roll all the way back, preventing it from hitting the side of the vehicle.

Part Number	Description
88812500	Side Door Wear Strip
88810100	Original Length Side Door Track
888812100	58" Extended Length RH Door Track
888820100	58" Extended Length LH Door Track
